

Napa Valley Toys: Doing Well by Doing Good

Napa Valley Toys has been making a splash with its award-winning line of NightBuddies® plush nightlights for children for several years. But Napa Valley Toys and its president, Sally Connolly, understand that children can't get a good night's sleep if they are worried about what will happen the next day.

That's why NVT and Sally have been working hard to serve underprivileged children in developing countries with not only toys, but also with such everyday needs as clothing and shoes.

These annual visits to South and Central America are one of the reasons that the success of NightBuddies® is so satisfying: more success means more opportunities to help those who need it most.

- NightBuddies are safe, comforting toys that promote wellness and imagination. Using environmentally friendly materials and innovating sustainable solutions in the toy market make NightBuddies® a great choice in every way.
